

- Identify strengths and weaknesses
- Diagnose problem areas and identify areas for improvement
- Prioritise your security focus
- Save time and money by deciding how best to spend your resources most productively

### Overview

The threat from terrorism, crime and anti-social behaviour are on the increase and a failure to deal with these can result in losses and damage which bring disruption on pressure on finances and resources. It can also impact in a negative manner on the morale of staff, visitors, and the good name of the business.

### What do you need to do?

One of our leading experts will visit you at your premises and discuss your specific needs with you so that we fully understand them. We will carry out an assessment of your current security practices and provide you with a comprehensive report with easy-to-follow recommendations on how security can be improved, where savings could be made, your priorities and how best to tackle them.

### Why choose Status Training Services?

We have an unparalleled knowledge of security in the further education sector. Our advisors have a unique blend of practical security management in the Police Service and industry. They are qualified to provide a comprehensive service, from analysing risks and the effectiveness of current security practices, to developing evidence-based security strategies and providing advice on security equipment, services and training.

### The Benefits

The Health Check will provide you with comprehensive information on all aspects of security including situational crime prevention measures, entry and exit controls, asset protection, technology, the use of security personnel, staff awareness and training. Also:-

- **Reassurance** - that you are doing everything possible to protect your business by meeting regulatory requirements relating to public and staff safety, including corporate manslaughter legislation.
- **Reduction** - of the risk of major loss or incident leading to damage to reputation by security breaches. Assessing current risk levels and what individual loss events might occur.
- **Financial** - by identifying necessary security improvements whilst using resources as effectively as possible leading to potential cost-savings.
- **Advice** - in the form of a comprehensive report with recommendations where appropriate on issues including access control, lighting, CCTV, alarms, guarding services, procedures, staff safety and training. Our advice will be completely in tune with your institution and its available resources.
